

## REMUS – NEWSLETTER - JANUARY 2019

[www.remus-health.com](http://www.remus-health.com)

[www.remusinvestment.com](http://www.remusinvestment.com)

### Overview of Journey so far

- We have identified and organised a suitable '**Local Content**' partner for our **Oil** activities in **Ghana** with whom we will **Joint Venture** by end of **April 2019**. This is key to pursuing our target oil assets in-country.
- **Remus Coin Launch date fixed to 22<sup>nd</sup> April 2019. Work on the coin platform and exchange will be concluded by end of March 2019. Investors will receive their electronic wallets with instructions 2 weeks before the launch. Price at launch held at \$4.25/coin.**
- **Remus** is also pleased to announce we have begun the journey to our **Joint Venture** in **Kenya** with **NOCK – The National Oil Company** – we would wish to have this concluded by end of **April 2019**.
- Being effectively '**Third World**' nations, **Remus** has faced some significant challenges with particular infrastructure of digital communications in our targeted **African** countries which has delayed active progress of our unique '**Telemedicine**' application by 6 months. Local network providers leave much to be desired yet the challenge must be met in order to be effective.

### Awareness Concert – Accra, Ghana – August 2019

- Remus is proud to convey it is currently organizing what we hope will be a very special music concert in **Ghana** with local and well known International artists; further raising much needed awareness of the **Remus Health Programme**.
- Local and International media will be on-hand, ensuring we reach a global audience!
- Planning and execution of the event will be in the region of 6 months – but has begun in Earnest.

### Oil & Gas Opportunities - \$45 BN USD (Asset Value - Worst Case Estimate)

- African assets we have targeted have shown greater prospectivity than originally envisaged with a combination of '**Oil and Gas**' finds offshore in **Kenya** and **Ghana**.
- We have found a prospective asset in **Mozambique** and **Remus** will be incorporating and setting up operations in **Mozambique** within 30<sup>th</sup> June 2019. Operations here will be controlled from **Kenya** as part of our **East African Hub** strategy.
- We have begun discussions with '**Schlumberger**' to assist us in carrying out independent evaluations of our targeted '**Oil Assets**' and validate our observations of potential

resources and reserves. These reserves will form a further part of **Remus Assets** to which our auditors will duly register for 2019.

- Our aim is to have all **'8'** targeted assets on our books and audited before year end with a clear statement of reserves and **3<sup>rd</sup> party** validated asset values. This will of course drive the continued rise in the intrinsic value of **Remus Coin** as the company moves forward; as 40% of those asset values are of course allocated to the **Remus Coin**.

### **Corporate Structure – Global Consideration**

- Remus Corporation HK – HQ Incorporated July 2014
- Remus Health USA Inc – Incorporated March 2018
- Remus Corporation Ghana – Incorporated - Liaison Centre June 2018
- Remus Corporation Kenya – Incorporated - Liaison Centre July 2018
- Remus Corporation UK – Incorporated – G&G Technical Centre January 2019
- Remus Exploration Ghana – To be Incorporated April 2019
- Remus Corporation Mozambique – To be Incorporated May 2019
- Remus Corporation Philippines – Being Incorporated – completed May 2019
- Remus Corporation Mexico – To be Incorporated September 2019

By the end of 2019 **Remus** will have an active presence on **4 continents** globally with access to over **400 million Healthcare Users**. This will be the platform from which we begin deploying our **Healthcare Programme**. The challenges remain notable but we proceed with ambition, caution and purpose.

### **Remus Coin – The Awareness & Sales Campaign**

- 9 weeks to go before the **'Official Launch'** of **Remus Coin** with an incredible 21% gain in price locked-in for **22<sup>nd</sup> April 2019**.
- **Investors** will receive their **'Electronic Wallets'** with access to the **'Exchange'** in order to trade their coins **2 weeks** before the launch. **Remus** will provide **Online Support 24/7** via a live blog channel facilitating any related enquiries and or technical issues.
- We have ramped up our social media campaign to aid awareness in the public domain.
- A number of **'Institutional Investors'** have been suitably prepped for significant purchases at the **'Official Launch'**.
- The **"Live Concert"** in **Ghana** this **August 2019** will we hope aid the intense awareness campaign we are running. **Remus aspires to be ubiquitous and synonymous in the idea of Global Healthcare**.
- We launched our Investor website on **13<sup>th</sup> February 2019**: [www.remusinvestments.com](http://www.remusinvestments.com)
- The Launch will last from **22/04/19 to 22/07/19** and we hope to reach our first target of **\$150M USD** sales by **July 2019**.

### **CEO's Comments**

**2018** was the year in which we started making preparations and focused **80%** of our resources on pursuing Oil opportunities. A technically complex process with all the challenges of dealing with **National Governments** and **Ministries**. Like it or not that will be the core of Remus activities going forward as we seek to gather sufficient capital to fund our **Healthcare Programme**. We are targeting having some **\$80BN USD** of extractable assets on our accounts within the next **12**

**months.** We are circa half way so I remain quietly confident. Should we achieve this outcome, we then have the financial strength to deploy at will.

Managing our cashflow going forward whilst navigating fiscal and legal demands will always be a challenge and we are examining how we can efficiently manage this with our financial advisors. By definition this is also complex with at times lengthy timelines involved in meeting compliance requirements. But again, it's a journey and we will make it.

There will of course always be the skeptics, naysayers and scenics that continue to question feasibility. I have personally encountered many in recent months. My answer to them is quite simple...

**" We welcome your support however if you cannot offer any kindly get out of our way....".**

7 years ago, we were an idea on a piece of paper, now we are a lot more than that. What we offer **Healthcare Users** is much needed and welcomed in many countries to which we are proud to assist. **We will and must succeed.**

Thank You

Sath Kanagarajah  
**CEO Remus Corporation**  
January 2019.
